

# Glenfield School Council

On Thursday our school councillors went to Solent University. They presented information about our school and did this clearly and with great confidence. They also worked in small groups with different schools about different topics in school, such as healthy living, bullying and well-being in school and how we tackle these issues.

I am so proud of our school councillors as they worked fantastically with the other schools and their behaviour was outstanding.

Thank you school councillors – Mrs Wood 😊
