

Week beginning 25.1.21 - ICT

We are going to be learning about what the internet is and how it can help us to do research (finding out information).

You will have Purple Mash login details sent on Marvellous Me. Use this login to look at this slideshow:

Discussion point:

What do you use the internet for at home?

A really good use of the internet is to find out more about a certain topic. We are going to use the internet to find out lots of facts about tigers.

Re-cap how to stay safe on the internet before browsing for answers:

- Always ask a grown up before using the internet
- Tell a grown up straight away if you are unsure of anything
- Don't click on anything you are not sure of
- Don't talk to strangers online
- Don't give away your personal information (real name, where you live, your school etc.)
-

Can you think of some questions you have about tigers? Jot them down.

Use <https://www.kiddle.co/> (a child friendly search engine) to find out the answers to your tiger questions.

Can you make a leaflet or poster displaying all the facts you have found using the internet?
