

Year 1:

Hello! On the 9th of February it will be Safer Internet Day or 'SID'. This is a day in which safe and responsible use of the internet is promoted.

The theme for this year is:

An internet we trust

Exploring reliability in the online world

*You will be learning about the importance of staying safe on the internet and will have a good understanding of what is safe and trusted.

*The first thing you need to do is take a look at the presentation that has been recorded by Mr Little found here:

<https://youtu.be/iz2lGq8nkqY>

*Once you have watched the presentation and listened to the story that Mr Little read, you are going to complete a short activity which will help you put into practice how you should be safe online and how you can select trustworthy facts.:

Now it's your turn!

*Using what you have learnt from Digiduck you are going to research a forest animal of your choosing. This could be, for example, your class animal: Badgers, Deer, or Foxes! You should try to write down a couple of facts that you can share with your family or your class teacher on your next Zoom call! – maybe you could make a collage of that animal or even make your very own factfile!

Note: All internet usage should be supervised at all times.

It is best to use a child friendly search engine to find out your facts, I recommend Kiddle which is a search engine for children made by Google:

<https://www.kiddle.co/>

Try to keep in mind what Wise_Owl said in the Digiduck story about choosing information that's **trustworthy**.

Wise_Owl's advice:

- ✓ Talk about it with an adult.
- ✓ Check another website.
- ✓ Use books to help.
- ✓ Look out for things that seem strange.
- ✓ Think about what you know already.

Can you think of any of your own?
