

Science - Spring 2

Ourselves

This half term in Science we are learning all about our bodies and what different parts are used for, with a focus on the five senses (hearing, sight, smelling, touch and tasting).

Every half term we also do one lesson on the seasons and weather, as it changes throughout the year.

Session 1 (seasons)

Questions to discuss:

Do you remember the Autumn collages you made using leaves?

What were the leaves like? What colours were they?

What do you remember about Autumn?

Is it still Autumn? Has the weather changed since Autumn?

Watch this video: <https://www.bbc.co.uk/teach/class-clips-video/the-four-seasons/z4vjmfr>

Can you tell which season it is and when the seasons change? Which season do you like best and why?

Session 2 (ourselves)

Watch the video then label the parts of the body. You can write the parts or cut and stick the labels. Ask an adult if you need some help reading some of the labels.

mouth

hair

foot

head

eyes

ears

teeth

leg

elbow

shoulders

thumb

knee

nose

toes

fingers

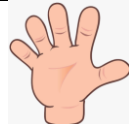

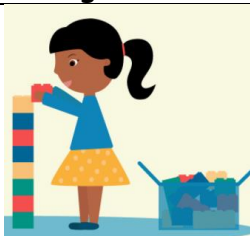

hand

Session 3

Let's think about the 5 senses. Here is a video that explains the 5 senses:

<https://www.bbc.co.uk/bitesize/topics/z9yycdm/articles/zxy987h>

Tick which senses are used for each activity. You can think of your own one too.

	 sight	 hearing	 smelling	 touch	 taste
 Watching TV					
 Eating dinner					
 Building a tower					
 Drawing a picture
