

Curriculum Intent

EYFS

Intent

Our intent for children at Glenfield Infants is to give them the knowledge, skills and love of learning to enable them to lead happy fulfilled lives. Personal, social and emotional development is vital to ensure our children's wellbeing is high. Our partnership with parents is strong as we feel that this improves outcomes for all. Our aim in the EYFS is to build strong foundations based on rich language that allows children to be active, confident and resilient learners. Allowing children to lead the learning and follow their own interests is important to Glenfield staff as we believe children are more motivated and engaged when allowed to do this. This also allows children with additional needs to fully engage with our curriculum. It also leads to staff getting to know children really well and through quality interactions further the learning. Using visits and visitors to enhance our curriculum enthuses children and further develops speaking and listening skills. We are keen to enrich our outdoor provision including introducing forest school to enable children to develop strong physical skills, take risks and engage with the natural world. Language and reading development is a priority and by providing vibrant continuous provision, and extended play opportunities we hope to develop this to the full. Our intent is to provide a play based, ambitious curriculum that allows all children to make excellent progress, and feel confident when moving on to Key stage 1.
